If you use PICKUP PLAYERS you must provide "REAL" name & have them sign - distinguish them as "Pickup Player" by writing PICKUP PLAYER or "P" next to their names.

In COED you MUST separate the men & the women as shown above. If you will lead off with a woman - list the women first ... if you will lead off with a male - list the males first.
MEN'S play you list the batters straight down in order.

Please be sure to PRINT clearly to prevent spelling errors & provide FIRST and LAST names. If you want a specific uniform #, make sure you provide that as well or the scorekeeper will assign randomly. **UNIFORMS ARE NOT REQUIRED TO PLAY!**

For proper DEFENSIVE (fielding) stats you must provide starting positions. If you do not provide positions the scorekeeper will assign them randomly. In the example above it shows how to provide positions either regular or numerically - you can do either.
MLS will not correct defensive stats when positions are not provided.

The Lineup is the order in which your players MUST bat. In coed you will "FLIP-FLOP" males & females. If you have a late arrival they need to check in with the scorekeeper & may be added to the bottom of the line-up ONLY.
If a player can not bat when their turn comes up, for any reason, they are OUT.
